

UPDATED NOTICE
Index of Titles and Authors
published in
*Environmental Conservation**
during
1974–86,
with Supplement for 1987–88
and further ongoing Supplements

Further to the Notices in recent issues of our Journal, we are pleased to inform readers that the above Index for 1974–86 (both inclusive) is available from the undersigned at the price (including surface postage) of US \$35[†] or 50[†] Swiss francs *as long as stocks last*. It is anticipated that most of our subscribers, at least, will wish to purchase a copy of this pioneering Index which, with its 9,399 entries occupying 159 pages in the format of the Journal, approaches twice the basic length of one of our issues but costs much less.

Referencing, as it does, surely the vast majority of leading Authors and topics that emerged during the formative years of the environmental–conservational movement or ‘revolution’, this Index should represent a valuable tool for research workers and a propitious guide for writers. This was borne out by our own experience during its years of compilation, when it already proved to be a most useful work of reference, ‘... altogether constituting a unique chronicle of the environmental–conservational concerns of modern times’ (according to the Foreword by the Executive Director of the United Nations Environment Programme, Dr Mostafa K. Tolba).

We are now glad to announce that we are sending, free-of-charge to all purchasers of the Index while stocks last, the first Supplement covering the years 1987 and 1988, and hope hereafter, at approximately 5-yearly intervals, to supply further supplements covering those latter periods — also wholly free if affordable.

Finally we still have a few complete sets of *Environmental Conservation*, from its beginning with the Spring issue of 1974, still available for purchase by or for worthy ‘homes’.
